

FREE Family Funergy Festival

12-4 p.m. August 29 at Granite State College

Located at The Tech Village, off Rte. 16 in Conway

Activities emphasizing local food and energy, including:

Dirt Made Your Lunch - activity that identifies what parts of your lunch started in the soil.

Sunsations - create your own solar oven from a pizza box and heat up water.

Spreading Sunshine - build solar ovens to send to third world countries

Dig it! - soil layers pit; "paint" a picture using the different soils

Windygy - make a windsock, pinwheel, wind serpent, more

Wat 'r ya doing? - using the Enviroscape, demonstrate where water goes and what the consequences of run off and pollution are especially for drinking water and farming

Recycling Relays - learning how to recycle games

Cards for Kids - bring/use old cards and make new ones, or cut and send fronts to the St. Jude Ranch for fund-raising for abused kids

Young Kids Corner- kids swimming pool filled with wood pellets and hidden treasures to identify if natural or not plus other exploration games

Energy Olympics - a series of activities that use energy and things made - pin wheel rotation, water wheels, and more

Snacks from Valley Community Gardens & ***Food Preservation Demonstrations***
